Christina Bush, Michigan Department of Community Health

Email: bushc6@michigan.gov

Phone: (517) 335-9717

RSVP by May 20, 2016

- Intended audience: MDEQ staff, health departments, schools, fire departments, tribes, utilities, EMTs, and anyone involved in a mercury spill
- Handout materials will be provided (e-materials and hardcopies)
- NO charge for the course
- Certificate of contact hours available for fire inspector credits and for CEU credits for sanitarians
- Thank you to the Battle Creek Fire Department for helping coordinate this workshop!

Goals of workshop:

- ❖ Understand the health concerns of mercury exposure
- ❖ Recognize mercury hazards
- ❖ Learn about levels of response to liquid mercury spills (note: this is NOT a hazmat training)
- ❖ Identify public-agency and private partners who can assist during a spill event
- ❖ Role-play in simulated mercury spill scenarios
- ❖ Practice hands-on techniques with a mercury vapor analyzer and interpret readings
- ❖ Identify prevention and response information resources
