### **Training Description:**

Chemistry for the Non-Chemist - a five-hour training geared toward HHW professionals. This class is designed for anyone working in the hazardous waste field, including hazmat technicians, regulators, HHW staff and volunteers. In an exciting hands-on class, your staff will learn an appreciation for especially dangerous chemicals, hazard classes, chemistry basics along with some tools for identification of unknown chemicals.

Date: January 19, 2017

Location: Ann Arbor, MI

Cost: \$160 per person
